Do Not Call List Information
(updated 2/14/05)

The delivery of recorded messages is regulated by both National and state agencies. The regulations include (among others) restrictions on what type of calls may be made, and when callers must honor do-not-call lists. It is the customers responsibility to be knowledgeable of and comply with all regulations. This document does not provide legal guidance, but describes which do-not-call lists are available from Marketouch. Customers may instruct Marketouch how to configure their mailboxes to use or not use the available lists by completing a "Compliance Worksheet" available from customer service at 800-784-1185.

The National DNC List: Marketouch has acquired the list. Tax-exempt and political customers may elect to have Marketouch apply the National DNC List to their mailboxes. All other customers may request the National DNC List by providing their FTC Subscription Account Number.

States Using National List: The following states have do-not-call regulations that use the National DNC list. Customers that are required or desire to apply these lists must request the National DNC list as described above.
